MEMORANDUM
BY THE GERMAN DELEGATION ON THE EXPORT
TO HUNGARY OF DIPHENYLAMINE

The German authorities have received an application
to license the export to Hungary of

300 kg Diphenylamine, chemical pure,
covered by item 1703 b
valued at \$412.-

The material will be used for pharmaceutical purposes
(production of Antihistaminica and Neuroplebica).

This case is submitted under the framework of
Cocom Document 1473, annex A b. In view of the small value
and quantity involved and the civilian end-use of the pro-
duct, the German authorities intend to grant the licence
if - as they hope - no objections will be raised by the
27th July, 1959.
